Mr. Chad Hayson

Albert Lea, MN 56007

Dear Chad,

In regard to the denial of your request to air the county commissioner's board meeting, I have made the decision that we will not air video of events on the Government Access Channel unless the government entity of which is being filmed consents to the airing of the video.

In this case, Freeborn County objected to us airing your video because you have not been designated or authorized to be the recorder of county board meetings. If the county commissioners change their position on this matter, we will be happy to air these meetings in the future.

As you know, the public access channel is available for the airing of information such as this. Please feel free to contact me if you would like to discuss this further.

Sincerely,

A handwritten signature in cursive script that reads 'Victoria Simonsen'.
